Westminster Aqueduct Society

Subject: Water shortage

We are experiencing a shortage of water and I am taking the following measure to help keep the system running. I will be shutting off the water tank every night at 8:30PM and turning it on at 6:30 AM the next day. This will help to replenish the tank and keep the system running. I will notify everyone when this is no longer necessary. Any questions please call me at 802-289-3114 or 802-518-4635. Thanks for your help.
