Data sources:

- Land cover data were developed by Windham Regional Commission using 2010 Vermont digital orthophotos, 2011 National Agricultural Imagery Program orthophotos, 2011 Bing imagery, structures data, National Wetlands Inventory data, and other sources.

- Primary structure locations are from a Windham Regional Commission database created using primarily data from Vermont's Enhanced 9-1-1 program data (VGIS data layer ESITE). Locations have been edited in 2005 and 2012 using current orthophotos.
